

Monday Night Setup and Printer Test

10

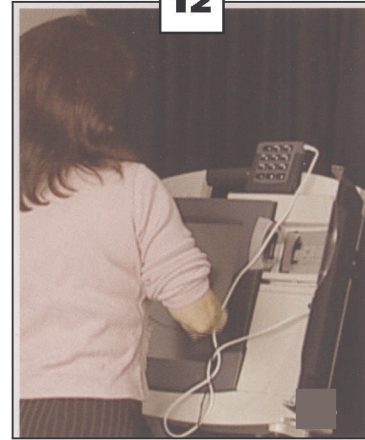

Pull the tablet out of the cradle and plug the keypad into the port on the back.

11

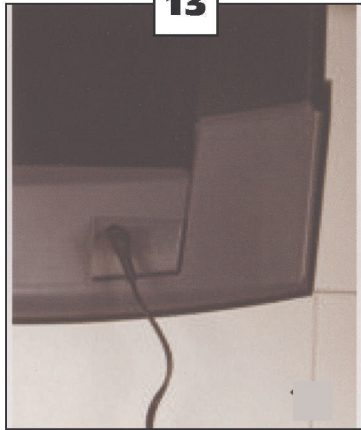

Feed the cord through the mounting slot and place the tablet in cradle and secure the tablet.

12

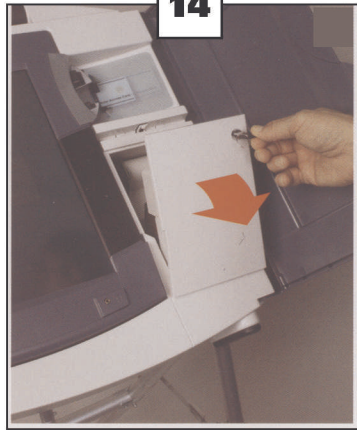

Set the keypad aside.

13

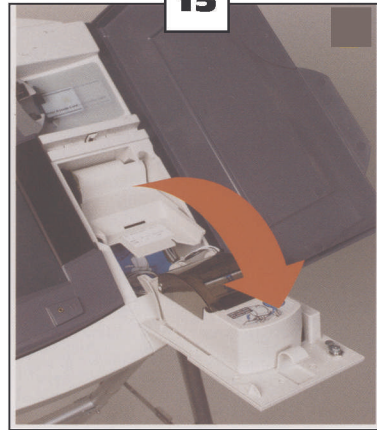

Place the headset plug into the jack on the front of the tablet and hook on rail under unit.

14

Use key to open printer access door. Key is found in the binder.

15

Swing printer access door down.

16

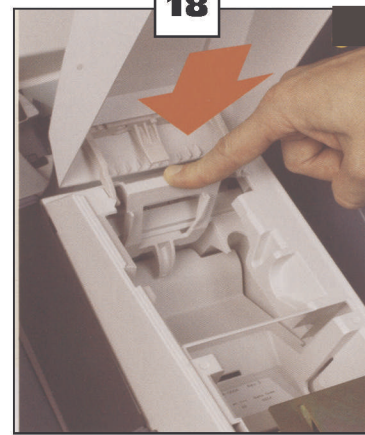

To mount the VVPAT align its bottom lip UNDER the printer door. Raise the housing up and pivot it forward.

17

Swing the printer housing cover up and remove the canister.

18

Press firmly on the latch at the top edge of the housing to secure voting terminal. It will snap into place.
